 - d) services available elsewhere in the community are not unnecessarily duplicated
 - e) library funds are responsibly expended in a deliberate and accountable manner
 - f) continuity of services is maintained regardless of personnel changes in the board or staff

2. To this end, the board shall:
 - a) in the second year of its four year term, develop a strategic plan that includes the mission and vision statements, and priorities
 - b) develop a cycle for reviewing and assessing:

 - i. distribution of an annual report
 - ii. presentations to Council, service groups, and community organizations
 - d) ensure public information and communication about the planning process and the plan are accessible to persons with disabilities.

3. Reviewing and assessing the library’s current environment will be addressed through a situational analysis which may include:

- a) **Community analysis** - A range of community-related information with possible implications for library service, including demographic data, municipal planning documents, and information on local agencies and services, is gathered and formally analyzed at least once every four years and the results used in the planning of library service.
- b) **Consultation with users** - Library users are consulted regularly concerning library service (e.g. by means of surveys, focus groups, formal and informal interviews, open houses, suggestion box, website, etc.). The Library ensures that the invitation to comment and the feedback process are accessible to persons with disabilities by providing or arranging for the provision of accessible formats and communications supports, upon request.
